

DECEMBER 4, 1890.

## Resumé of Foreign News.

**Europe.**  
The larger portion of European telegrams is in reference to the land agitation in Ireland which continues unabated. The only important news from London is that the Cabinet Council at Balmoral on the 20th inst., prorogued Parliament to the 2d of December, but without summoning it to meet for the despatch of business.

Owing to the land troubles the situation in some parts of Ireland has become truly alarming. A Mr. Boycott near Ballinrobe was unable to procure any help on his farm, and has been hunted and pursued and kept a prisoner in his dreary home. No body dared to sell him bread, even, and he is deluged with communications of anything but a reassuring tone. A large number of Orangemen escorted by a troop of hussars have gone to Boycott's to threaten the grain and take it to market. Few men were seen on the line of march to Boycott's, but it is reported that scouts were on every hill, and pains were taken to identify the Orangemen. Several shots were fired at the barracks in Ballinrobe the night the Orangemen slept there, but no one was hurt. As long as the Orangemen remain at Boycott's the garrison will be 100 infantry, 60 cavalry and 50 police. Other dispatches say that firearms were purchased and carried by hussars to oppose the passage of the Orangemen and that at a meeting hastily called, revolvers were produced, and the most violent language against the Government was used. A dispatch of Nov. 15th says: "Reinforcements of 100 men have been sent to Boycott's house. Preparations are being made for military occupation of Hendport, four miles further on, in consequence of the threatening aspect of affairs there." Another dispatch a day later says: "400 additional troops will be sent there immediately." Members of the Land League, apprehending a seizure of their persons and property by the Government, have invested the entire amount of their funds in foreign securities and lodged them in a Continental bank. All their books and papers, which might have been of immense service to the Government in securing their conviction, have been removed to a place of safety, but whether this place is in the British realm or on the continent is a matter of conjecture.

Accounts received from various parts of the country up to Nov. 20th, by agents for property represent the state of the country as still more disturbed and demoralized. The combination against the payment of rents in extending into districts hitherto peaceful, and the terrorism which follows closely in the wake of the Land League is steadily breaking down the opposition of the law-abiding classes. Tens of thousands do not pretend to be unable to pay their rent meet their landlords defiantly and refuse to pay more than Griffith's valuation, and in some cases decline to pay at all or demand arbitrary abatement. Thomas Power O'Connor, M. P., speaking at a public meeting in Galway, said that when the objects of the Land League shall have been attained, the Irish people will have a more noble course in view to wrench themselves from the rule of England.

The religious decrees are being enforced in France and have in places occasioned serious trouble. On the 8th inst., a rumor being current that decrees were to be enforced against the Marists, 5,000 persons assembled before the doors of the convent. Shortly afterwards many members of the Catholic Clubs arrived, and a serious disturbance between the two factions ensued. Numerous grave affrays occurred. The gendarmes repeatedly charged on the crowd, and 60 persons were injured.

Spanish liberals view with much apprehension the large body of religious orders from France settling in Spain. They point out that society contains sufficient elements of clericalism and intolerance already. The arrival of the French monks at Alicante and Barcelona caused a popular demonstration. They were compelled to re-embark from the latter place.

Latest advices from Turkey say the troops under Dervish Pasha, in various points near Dulcigno, are surrounded by Albanians. The Albanian League has informed the Turkish authorities that it will forcibly oppose any attempt to execute the decree calling out the recruits for service. An Austroan Consulate has been pillaged by mobs. The position of affairs at Epirus is very grave. Eight thousand Albanians and Epirotes have volunteered to serve under the League. Two thousand assembled here recently. The movement is directed as much against the Turkish rule as against the annexation to Greece.

Greece seems determined to annex the territory awarded to her by the powers and is rapidly advancing military preparations. The Turks are fortifying the borders of Thessaly, evidently determined to resist the action of Greece.

**Asia.**  
The Russian column under General Skobeleff has begun its march against the Turcomans.

The Turks still continue. The following are the latest dispatches concerning it:

Nov. 12th.—Sheik Abdullah is surrounded near Urmiah. The Persians have captured the town of Sonjbolak—the Kurds losing 200 killed and 150 prisoners.

Nov. 14th.—Two thousand bodies are lying unburied in the environs of Sonjbolak. The death of the Persian Commander-in-chief is confirmed.

Nov. 17th.—Fifteen battalions of Turkish troops have marched from Van against the Kurdish invaders.

Nov. 20th.—The Persians destroyed the Kurdish village around Sonjbolak, and Kurdish tribes fled a distance of 50 miles.

**Africa.**  
The situation in South Africa shows little change. Latest date November 16th, say:—The rebels have attacked a small force of Cape troops occupying the Basuto Chief Letsoho's village, and the troops were obliged to evacuate the place.

Fifteen hundred men have gone patrolling through Basuto land.

The Basuto Chief Umhlobo has been defeated by the Colonists. The Premier of Cape Colony telegraphs: Brownlee reports that he has sufficient force to suppress the rebellion in Griqualand East. The situation in Basuto land is unchanged, and there is no further extension of the rebellion in any direction.

**North America.**  
There is no political news of importance from the States except that the Republican victory is more sweeping than at first reported.

Trouble with hostile Indian tribes still continues. Chief Victorio, who, with his band, has murdered upwards of 400 persons within the past year in the wild and

sparsely settled portions of New Mexico, Colorado, Arizona and Northern Mexico, has been slain at last in Mexico. Terrazas, Chief of the Mexican troops, writes that on the 15th he killed Victorio and sixty warriors and eighteen women and children, and captured sixty-eight women and children. There are still thirty Indians at large. Terrazas has 1800 Mexican troops operating, and there are 800 United States troops out on the borders of New Mexico.

Sitting Bull, Chief of the Sioux Indians says that he will fight the United States forever. General Miles is organizing an expedition against him.

Railroad building on a number of important lines is being pushed forward rapidly, and the country will soon be crossed by another trans-continental road. The Atchafalaya and Santa Fe Company has issued a circular to the shippers of California freight, announcing that that road and the Southern Pacific will be completed and connected about Jan. 1st, 1891, thus opening up a new through route between the East and San Francisco and all other points in California and Arizona.

The Northern Pacific railroad will be completed to the Yellowstone river early next year, and the company expects within two years to connect with the western end building eastward from the Pacific.

Arrangements are being made for the extension of the Southern Pacific railroad on the Galveston, Harrisburg and San Antonio road to Texas, which, when perfected, will soon provide a fourth road from the Pacific to the Atlantic.

**Central America.**  
A Paris dispatch of Nov. 17th, says the capital of the Panama Canal Company will be 500,000,000 francs, divided into 500,000 shares of 500 francs each, 10,000 shares being reserved by the statutes for the civil company of original concessionaires, for the concession contributed by that company. Five hundred and ninety thousand shares remain for public subscription. The issue will be made at par, 25 francs being paid at the subscription, 100 on the allotment and the rest as required. The total cost is estimated at 600,000,000 francs. The sum necessary for the completing of the canal over and above the capital will be raised by the issue of obligations. Five per cent. interest is to be paid on the shares during the execution of the work. Of the net profit, 80 per cent. is allotted to the shareholders by the terms of the concession. De Lesseps states that contractors have sent in their estimates, according to which the construction of the canal will not cost 500,000,000 francs. It is provided, by a memorandum signed July 7th, that a special American committee, sitting in New York, shall represent the interests of the Company in the United States. All that relates to the observance of neutrality of the canal is settled by the law of concession of the Republic of Colombia.

**South America.**  
A force of Chilean troops are raiding the northern towns of Peru. The damage done is immense. The people are panic stricken. All who were able have gone to the towns in the Cordilleras and on the northern slope, where it is hardly possible the Chileans will dare to penetrate. Blackmail has been extensively levied by the Commander, and all who have been "requisitioned" and have not paid up have had their property destroyed.

Following the Chilean force are hundreds of Chinese lately employed on haciendas, visited by Chileans. This horde complete the work of rapine and plunder begun by the invaders. A skirmish recently took place near Moquegua between 400 Peruvians and 300 Chileans, resulting in the defeat of the latter. Some artillery, accompanied by a force of 2,000 men, had left for Moquegua. The Chileans landed almost 1,000 men on San Lorenzo, and were busily engaged in constructing batteries.

**Moreno Again.**

It is somewhat curious that our Eastern papers should have been so thoroughly deceived, as many of them evidently have been, by that notorious adventurer Celso Moreno. The Cleveland Leader under the plausible head of "A distinguished visitor at Mentor," describes an interview between the notorious *chevalier d'industrie* and General Garfield, which we are soberly told lasted several hours, and during it the affable *chevalier* designed to express himself "pleased with the beauties of Cleveland" to make "complimentary mention of the ladies" and to show his surprise that Ohio should "produce so many great men when other larger and richer States have but one or two of national reputation." And we are asked to believe that "Signor Moreno was made the bearer of a cabinet photo of General Garfield to His Majesty King Kalakaua," which however requires so high an imaginative flight that we plead inability to yield concurrence to Artemus Ward's statement that "Shakspeare would have failed as a reporter for a daily paper. He lacked the requisite fancy and imagination." More recently the New York Star, an obscure and insignificant journal stultifies itself in a half column devoted to abuse of our Minister to the Hawaiian Islands, Mr. Conley, and praise of the notorious swindler. In answer to its attacks we will inform the Star, that Mr. Conley did his duty and transcended his authority in no respect by his action in the matter, but that in conjunction with the other Foreign Ministers he acted most wisely and for the best interests of this country. Further, that it is as indecent in a newspaper, supported only by lying charges of such a trickster, to make a petty assault upon an upright gentleman as it should be ridiculous in the government to follow the fool and trickster's advice, and investigate these charges. We know little about the Star; but from that little, we fancy that it seeks common notoriety by blatant opposition without interest or reason, reminding us of its intelligent compeer who said: "I care not a hang what your government is, I'm against it." Husted, from higher circles, he endeavored to astonish natives by the slights of hand, and succeeded only in deceiving the King. Driven in turn from that country, the Honolulu Star-Advertiser, commenting upon his career, gives the following certificate of character, which we publish with grave sanction to:

The incident has no importance or significance whatever, beyond furnishing an item of additional evidence of the extraordinary impudence, mendacity and utter absence of honest manly pride which characterizes the detected and exposed charlatan and fraud, Sir Celso Moreno.

We trust this will prove the last occasion wherein we may be called on to touch so noxious a subject, but while touching it, we will publish the following self-explanatory letters:

Have followed the series of letters which we published some weeks ago—S. F. Page.
